Plagiarism Agreement

Plagiarism Agreement*

The Fulbright Foreign Student Program seeks applicants whose writing achieves the highest academic standards of original research, writing, and citation. The program application includes the opportunity to describe your academic work, research, and personal objectives. Application materials will be processed using software to help identify any instance of plagiarism. Plagiarism in any part of your application will result in your disqualification from participating in the Fulbright Foreign Student Program.

From the Oxford English Dictionary:

"Plagiarism is the wrongful appropriation or purloining and publication as one's own, of the ideas, or the expression of the ideas of another."

Plagiarism will be understood to include any of the following:

Presenting wording, statistics or concepts as your own which should be attributed to someone else or to publications (online or offline). This includes, but is not limited to:

- Copying the exact wording of a written source
- Presenting material with alterations in wording
- Paraphrasing the content of a source without citation

It is expected that your responses to all questions in the following application will be your own work and writing, with clear citation of secondary sources if describing academic work and the writing of others (including one's own previously published work). Any sources used in the construction of your responses must be clearly cited.

By indicating "Yes" in the question below, you are acknowledging that you understand both what actions constitute plagiarism in this application, and the consequences resulting from any plagiarism found in your submission.

I have reviewed and understand the above information on the importance of presenting my own original work in the Fulbright Visiting Scholar Program application. I agree to properly cite any outside sources from which I take words or ideas in the composition of my application.

I understand the consequences of plagiarism in my application.*

☐

You will be ineligible for the program if any part of your Fulbright application is found to have been plagiarized.
